This is the Social Lab.

Have fun.
Talk to your friends.
Argue math at the whiteboard.
Ask questions of strangers.
Play games, listen to music.

This is still a work space.
Please ask others in the lab before beginning an activity that you anticipate as distracting or loud.

If someone is doing work and requires quiet, respect their wishes.

Games are the lowest priority.
If you are playing a game and someone needs your machine to work, offer the computer to them.
